'I have always relied on my dreams...'

Step through a Linda Ravenscroft painting and you may surely find yourself in a faerytale dream, where the threads of time are woven with brightest shadow. Born and raised in Chester, UK, Linda has been painting since she was two years old. Always a story-teller, Linda often painted enchanted worlds in which to live, to dream, to play. Those enchanted realms and their inhabitants soon created quite a stir in Linda's native UK, as collectors discovered her playful pixies and faraway fables. During the past ten years, Linda's original art and design has been published in a number of media including fine art litho-graphs, posters, stationary, greeting cards and puzzles. Most recently, Linda's work is featured in the book 'The Art of Faery', (Chrysalis Books, London) and also the upcoming book 'Watercolor Faeries'.

Beginning in 2005, Linda's original water-color paintings and limited edition prints are exclusively available through Duirwaigh Gallery. Manufacturers of the magical and mythical are invited to inquire, as Linda's extensive garden of imagery is available for license on a growing assortment of elegant products.
